SLPC120

Internal corner for use with 13mm thick board at 90 degree corners, to provide a neat and stylish finish whilst adding protection.

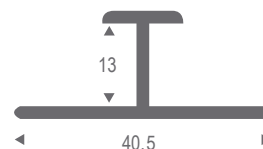

SLPC220

External corner for use with 13mm thick board. This external corner forms a practical solution for joining 2 boards at 90 degrees and is ideal for column cladding or external perimeter finishes.

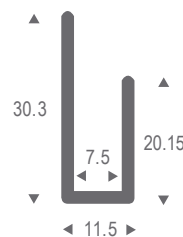

SLPC620

Board Joining Channel for 13mm board. For use on perimeter or midfloor areas where you require a neat and strong join between boards on a long run.

SLPC420

Unequal Channel (J-Section). Used for end capping and protection of boards at joints.

SLPC421

Unequal Channel (J-Section). For 13mm board thickness. This channel is a practical way of end capping 13mm board for protection and added strength.
